Identification Section report #1:

At 9.10 a.m. January 31, 1969, accompanied by Lieutenant Penkala and Cst. Winter, arrived at a scene of a murder, in the west alley which runs north and south in the 200 block Avenue N. South. This alley runs north and south between Avenue N. and Avenue O. On arrival at the scene Det. Parker and D/Sgt. Reid were in attendance. The scene was approached via the east-west alley from the 200 blk. Ave. N. So. to a point where the north-south alley joins the east-west alley. A blue blanket was spread over the body on arrival. It was located on the east side of the alley, with the head to the south and feet to the north, lying on stomach, face down. There was evidence of the snow being packed down on the east side of the body. The body was clothed in a black coat, black fur collar and cuffs, was bare headed and was that of a female. There was an overboot on the left foot and girdle, panties and stocking down over left boot. No boot on right foot, stocking down above ankle. Left and right stockings were attached to girdle fasteners. There were red spots in various locations about the body which were consistent with being blood. Two gloves were found in the snow on the east side of the alley, south of the body, one from left hand and one right hand both tan colored and in separate places in the snow.

DATE:

At 2.30 p.m., Lieutenant Penkala and I attended at the autopsy conducted by Dr. Eason. The body was clothed in black overcoat, black fur collar and cuffs. Brassier had right strap torn and blood stained. White dress blood stained with name tag Miss. G. Miller, brown hair adhering to elasp, button Saskatchewan Institute of Applied Arts and Sciences Nursing Assistant. Zipper on back broken, dress was torn in seam on left front below collar. Blood stained half slip along with dress were positioned at approximately waist height. The sleeves on the dress were not torn which would indicate that the dress was removed off the shoulders and arms by removing the coat and after placing the coat back on. Black overboot on left foot, girdle, panties and white stocking ~~stuck~~ down over boot. No boot on right foot, stocking off leg down to ankle, stockings were attached to the girdle. Girdle was blood stained and panties were blood stained in the crotch area.

Photographs were taken showing the wounds to the body.

Exhibits retained:

- #1: Black cloth material overcoat, black fur collar, black fur cuffs. 4 cuts through coat, 11 inches down from collar, 1 cut 7 inches down from collar. Centre button missing. The two remaining buttons are cloth covered buttons same material as coat.
